DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-10, 12-18, 19, and 21-27 allowed.

Claims 2, 11 and 20 have been canceled without traverse.

The following is an examiner's statement of reasons for allowance:

4. As per claims 1, 10 and 19 the closest prior art of record Cooper et al, U.S. Patent Application Publication No. US 2002/0029350 A1 in view of Kloc et al, U.S. Patent No. 5,241,565, de Fabrega, U.S. Patent Application Publication No. US 2001/0054019 A1, and Tatham et al, U.S. Patent No. 6,223,177 B1 taken either individually or in combination with other prior art of record fails to teach or suggest automatically configuring and managing access to multiple intranet configurations within an intranet by groups of users, each of which may have access rights to a different intranet configuration.

The specific allowable feature, which distinguishes the present invention over the prior art is in response to determining an intranet configuration does not exist, processing the first intranet information to execute a script to create the intranet configuration, creating a first card configuration for the first card intranet access card, and to connect the first requesting communication device of the first user to the intranet configuration to provide the intranet services.

Claims 3-9, 12-18 and 21-27 are dependent upon Claims 1, 10 and 19 respectively and thus have all the limitations of claims 1, 10 and 19 respectively and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
